Sounds good. Thanks.

How about if I ask them to generate the summaries from newest to oldest. When we hit the year 2000, I'll provide you what we have so far, and we can go from there?

The letter looks good, so please file. Re: narrowing the request, I'm more interested in matters that occurred after 2000, but it's hard for me to narrow the search beyond that. This is a quasi-academic request, so we're trying to get as much data as possible.

Ty,

Attached please find a similar letter to the court concerning the status of this case. Please review and let me know if you are agreeable to submitting this to the court in lieu of a JCR and scheduling order.

Also, I have relayed your willingness to accept case summaries as an interim step. The agency responded as follows:

"We will proceed with processing the case summaries as an interim step. One follow up question – since Mr. Clevenger noted that TTP may not want to see all or most of the responsive case files, are there any insights he

could provide now that would clarify which matters he is interested in (i.e., matters occurring after the year 2000, matters occurring in certain regions of the country, matters that were prosecuted as opposed to merely investigated)?”

If you have any clarification that would potentially narrow the scope and expedite processing, please let me know.

Thanks,

Andrea Parker
